

UZAIR ALI

Full Stack Developer | MERN Stack Specialist | GSAP & Lenis Animation Specialist

Hasan Abdal, Attock, Pakistan | uzaairaamir@gmail.com | linkedin.com/in/uzairdev1 | github.com/uzair0x7 | [Portfolio](#)

PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of hands-on experience designing and building secure, scalable, and high-performance web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Specialize in crafting fluid, animation-rich interfaces with GSAP and Lenis smooth-scroll, paired with robust backend architecture built on JWT authentication, REST APIs, and cloud deployment. Delivered 20+ projects with a strong focus on performance optimization, security best practices, and polished user experience. Currently deepening expertise in backend architecture, distributed systems, and scalable system design.

CORE SKILLS

Frontend: React.js, Redux, JavaScript (ES6+), GSAP, Lenis, Framer Motion, Three.js, React Three Fiber, Bootstrap, HTML5, CSS3

Backend: Node.js, Express.js, REST API Design, JWT Authentication, Middleware Architecture, Python (Flask/Django basics)

Databases: MongoDB, MongoDB Atlas, Mongoose, MySQL, Firebase, Firestore

Tools & DevOps: Git, GitHub, Docker, Redis, Vercel, Backblaze B2, Postman, VS Code, Linux/Bash

PROFESSIONAL EXPERIENCE

Independent Back End Developer

April 2024 – Present

Remote / Freelance

- Developed complete authentication systems using JWT, HTTP-only cookies, account logout, rate limiting, and bcrypt password hashing.
- Built REST APIs with structured validation, centralized error handling, and modular middleware architecture.
- Integrated third-party APIs including DeepSeek, OpenAI, Gemini, and Resend for transactional email delivery.
- Implemented Docker and Redis for containerization and caching, improving application response times.
- Configured cloud storage with Backblaze B2 for secure, private file management.
- Deployed and maintained backend services on Vercel with environment configuration and MongoDB Atlas integration.

Independent Frontend Web Developer

January 2023 – Present

Remote / Freelance

- Built reusable, scalable UI components with React.js hooks and Context API for production applications.
- Delivered fully responsive layouts using CSS3, Flexbox, and modern layout techniques across all screen sizes.
- Implemented real-time form validation, error handling, and loading states to improve user feedback and UX.
- Integrated REST APIs via Axios with interceptors for secure data fetching and token management.
- Applied frontend security best practices, including input sanitization and secure cookie handling.
- Improved load performance through code splitting, lazy loading, and component memoization.
- Built immersive 3D experiences with Three.js and React Three Fiber.
- Created smooth, high-performance scroll animations and page transitions using GSAP, Lenis, and Framer Motion.

KEY PROJECTS

Api Tester v2.0 — React.js, Node.js, Express.js

[Live Demo](#) | [GitHub](#)

- Built a full-stack API testing tool with request history, response visualization, and persistent local storage.

Auth System (MERN) — React, Node.js, MongoDB, JWT

[Live Demo](#) | [GitHub](#)

- Developed a production-ready authentication system with account logout, rate limiting, and secure JWT-based auth.

StoreForge – Online Pharmacy Store — Full-Stack MERN (React.js, Node.js, Express.js, MongoDB)

[Live Demo](#)

- Built a full-stack MERN e-commerce platform for an online pharmacy, including a Node.js/Express backend with REST APIs and a MongoDB data layer, plus a responsive React.js storefront with cart, product browsing, and theming.

Doctor Portfolio — React.js, EmailJS, Framer Motion

[Live Demo](#)

- Built a professional booking-ready portfolio site with patient testimonials and animated UI.

Personal Portfolio — React.js, Three.js, Framer Motion

[Live Demo](#) | [GitHub](#)

- Developed an interactive 3D portfolio with glass-morphism design and immersive UX.

EDUCATION

HITEC University — BS Computer Science

2023 – 2027 (Expected)

CERTIFICATIONS

- HackerRank Certified React (Basic)
- HackerRank Certified JavaScript (Intermediate)
